EIS000961

Dear Wendy,

Just a few comments about the hearing  
in St Louis last evening Jan 20 00.

1 I attended & I spoke but what worries  
me is the people in attendance & those who spoke  
are, in my mind, almost all out of the extreme  
environmentalist group headed by Ray Dney.

I don't know how your committee can clearly  
judge what you should do. What I heard  
last evening cannot be what most people think.  
This deck was definitely stacked.

2 Yes I spoke & I also would like to  
see all waste stored on site. So what makes me  
different than these people. Simply this, I have  
always said, leave it where it is. These people,  
at least up to now, have always insisted that  
the waste be moved. They were successful in  
getting other waste moved out of the St. Louis area.

1 continued  
... I will put my faith in your committee  
& accept your decision as the best. But please  
don't let the environmentalists sway your decision.

... Thank you for listening to me & trust you the best.

Sincerely,

Matt Bullock
